
Marisol

by NovaSiriGenetics

Average
precocity
variety

Plant

- Short day variety
- Average precocity
- Strong and very rustic
- Fruits outside the leaves
- Easy harvesting
- Tolerant to soil fungus, so it behaves well on second year soils

Fruit

- Medium to large and very large
- Homogeneous and consistent color throughout the production cycle
- Brix level high
- Excellent self life

Recommendations

- Average planting time
 - Avoid excessive use of fertilizers and stimulants to contain plant vigor
